CATALOGUE FALL/WINTER 2026

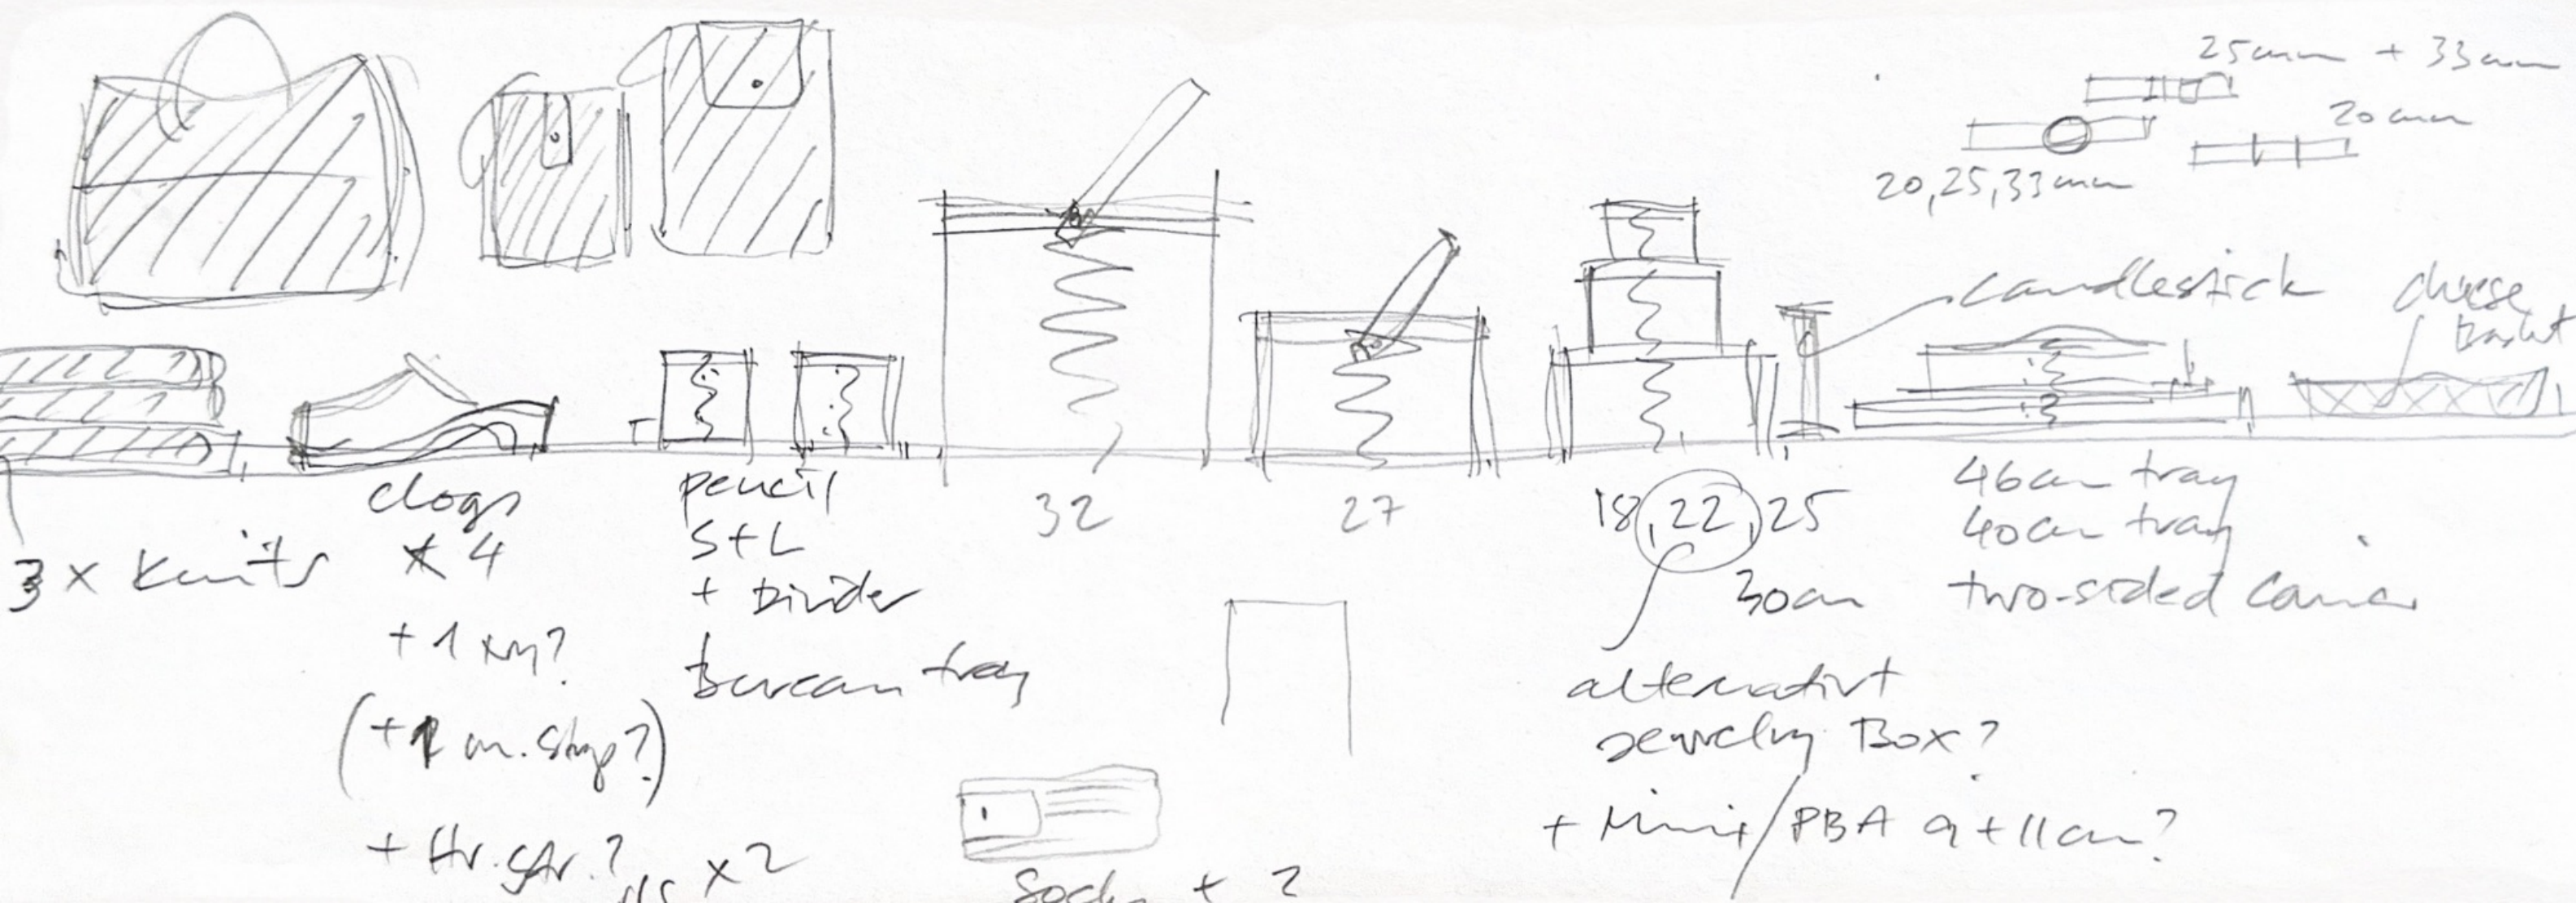

PURITY, DURABILITY, AND TIMELESSNESS

Rikke Falkow is a Danish architect with a longstanding love for Shaker design philosophy. In 1995, Rikke started importing American Shaker products to Europe. Today, she has extended her line to include garments and leather goods made in human, small-batch productions. Her collections are a combination of her Danish design sensibility of functionality, high craftsmanship, and good living, and the Shaker values of purity, durability, and timelessness.

Each piece is made with natural materials meant to traverse years of use and age with beauty. Contemporary designs are brought to life with classic craftsmanship. Rikke works closely with specialised artisans who carry on generations of savoir-faire using their best local materials. Items are handmade in their country of origin. RIKKE FALKOW is an independent family-owned business.

"Don't make something unless it is both necessary and useful; but if it is both necessary and useful, don't hesitate to make it beautiful."

SHAKER OVAL NESTING BOXES

Oval nesting boxes entirely handmade in the United States and Canada following the 279-year-old tradition of Shaker design know-how. CLOGS

RIKKE FALKOW clogs are made in an old Swedish clog workshop that has been practicing the craft since the 1900's in the forests of Småland. Rikke has known the Swedish clog master for years. They enjoy developing new ideas together. Handcrafted in wood and full grain vegetable-tanned leather.

THE NEW CLOG

This season, Rikke has worked with the master clog maker to relieve the traditional model of all superfluous details, resulting in a fresh, contemporary silhouette that still honors its original form. Available in natural and black nubuck leather.
